

THE ANNOTATED ADMIRAL THOMAS WILSON DOCUMENT

This absolutely legitimate leaked document from the archives of the late astronaut Edgar Mitchell is a game changer that exposes multiple significant truths not only about the reality of crashed ET space craft acquired by the U.S. military but the rogue, unaccountable Special Access Projects which are managing the analysis and reverse engineering of the technology. Protected by the beauracracy and secrecy of the Senior Review Group of the Special Access Project Oversight Committee of the Pentagon, they withhold vital truths from not only the citizens of Earth but from the scientific community, academia, elected officials, senior military leadership, and even the President of the United States of America. The cover up cannot be allowed to continue with the knowledge this doc contains. This annotation is dedicated to their exposure and complete disclosure of the UFO/ET reality. Please spread this widely because it contains core secrets that by definition will bring down the cabal that has existed ever since Roswell.

EWD NOTES

10/16/02 This date indicates the meeting with Adm. Wilson took place years after Adm. Wilson's search for the Special Access Projects holding UFO material in May - June of 1997.

Eric Davis Meeting with Adm. Wilson

Rich says to go to EG&G Special Projects building at Grier and Paradise. "Meet at 10 A.M. - don't be late!!"

10:10 (Adm. late)

Arrives with two Navy officers in uniform - he's in suit - now civilian
In uniform: 1 (full) Lt.; 1 Cmdr.; a petty officer drives car.

Greetings with Adm. Wilson

We sit in his car in back of EG&G building. Talk until 11:20 A.M. Others departed for building, to attend meeting inside (at 10:10).

TW: Hello! The minute I saw your (EWD) resume, US Uniformed Services ID copy, AF orders and physics paper Rich gave, I knew who you were. Put two and two together, figured you out! Figured who you were!! (Laughs) You don't want to talk about my career or DIA history!!! **DIA - Defense Intelligence Agency**

EWD: No! Actually not.

TW: I recalled phone call with Oke Shannon in Fall (Aug.?) '99. Big Oke Shannon fan!
Go back years in Navy before Oke left for LANL.

Oke Shannon - A former program manager at Los Alamos National Laboratory and an attendee of the Advanced Theoretical Physics working group that met in the early 1980's.

TW: Oke talked 2 hours, wanted to convince to talk to me (EWD) about what he told Will Miller ca. June '97 and April '97. Re: Boston Globe Story - L. Kean.
Yep, UFO topic - crashed/retrieved UFO craft/bodies, etc. MJ-12 like UFO organization (or cabal)

MJ-12 - Majestic 12, MAJIC 12, or Majority 12 (the exact name is uncertain) was a clandestine group put together immediately after the Roswell incident to control the UFO topic. Many dozens or more alleged MJ-12 documents have been "leaked" to researchers, although they are considered by some to be created by the insiders describing the organization but with a mix of both legitimate information and disinformation.

EWD: What was said?

TW: Confirmed Greer/Miller/Mitchell gave talk in Pentagon Conference room. Adm. Mike Crawford, Gen. Pat Hughes (Hughes his boss) were present (others too.) Date April '97. (Ed Mitchell said 4/9/97.) After group broke up, Miller/Wilson talked (privately) 2 hours on UFOs, MJ-12, Roswell, crashed UFOs/alien bodies, etc. TW
intrigued - knew about intelligence on US mil/intell UFO close encounters - and foreign gov't encounters. Seen records. Told Miller.

TW = Adm. Thomas Wilson

TW: Yes, Miller asked the question on MJ-12/UFO cabal - crashed UFO. Confirmed he called Miller ca. late June '97 and told that he/Miller was right - there is such an organization in existence.

EWD: What did you tell?

Although the management of the SAP Adm. Wilson met would not answer any of his questions about MJ-12, a leaked National Reconnaissance Office memo sent to him by Dr. Steven Greer contained a list of project codenames COSMIC Ops., MAJ Ops., MAJI Ops., and others that helped him track down the UFO related SAPs. The combination of finding out that a cabal of SAPs with immense power (along with enough sheer audacity to have his career threatened), the code names mentioned, and perhaps other information he uncovered that he did not report in this document was enough for him to conclude that MJ-12 did indeed exist.

You can read the document at the following URL: <https://siriusdisclosure.com/wp-content/uploads/2012/12/NRO-Doc.pdf>

Commander Willard Miller

**Dr. Steven Greer
Com. Willard Miller
Dr. Edgar Mitchell**

Patrick M. Hughes - a retired United States Army officer who served the 12th Director of the Defense Intelligence Agency.

TW: I found it, where I looked, who I talked to but did not name every one - that's it.

EWD: I show Miller letter (to me, EWD) dated 4/25/02 – please evaluate.

This is the letter that is included in the leak of the Adm. Thomas Wilson document from Commander Williard Miller.

TW: (laughs) Didn't tell Miller EVERYTHING! Miller knows what I did in Pentagon Records Group search but no more. Miller can make good educated guess on who (contractors) has alien hardware. Do not pay Miller – sounds hard up to pay for nice Florida home and private beach privilege – (laughs)!

TW: Miller can give good advice on which defense companies to look at – that's all he knows. [changes subject]

- Oke told all about JA (doesn't trust JA, a liar!) AP-10 group meetings at BDM.
- References Blum's book. Talked about JA, Blum's book, his (Oke's) role there, who attended, etc.
- Oke briefed me on whole BDM thing – talked about RV program for 10 min. I know something of this RV.
- Oke said I (EWD) was team player, would keep mouth shut, no media connections – obey all restrictions – not in government/no clearances, but pedigree excellent – professional/personal references very excellent.

[paper-clipped letter here]

In regards to the "educated guesses" that Adm. Wilson suggested Williard Miller could make about which contractors held alien hardware, we should look at a statement from esteemed scientist Bernard Haisch posted on his website before the leak of the Adm. Wilson document which directly addresses this issue. Likely, one of his associates such as Harold Puthoff, the head of Earthtech and Eric Davis' current employer, or someone else that had worked in Bigalow's former NIDS (National Institute for Discovery Science) shared the information with him. Please note, however, that the clues dropped by Adm. Wilson later in this document directly point to LOCKHEED MARTIN which is by far the largest military contractor and considered the "best" by many.

<https://sites.google.com/view/ufoskepticorg/home>

"A group of four related but separate unacknowledged SCI programs tracing back to a 1947 Truman memorandum still exist and were housed as of the 1990s in major aerospace companies such as for example Lockheed, TRW, Raytheon, Aerospace Corp. etc. These would be expensive programs since the cost of secrecy can be several times higher than the research. The AATIB program has no relation to these four much better funded deep black ones. Indeed, the black programs collectively have budgets in the \$10B range and up. Topics apparently include both reverse engineering and extraterrestrial biology."

2190 Overbrook Ave. North
Belleair Bluffs, FL 33770
April 25, 2002

Dr. Eric W. Davis, CEO
Warp Drive Metrics
4849 San Rafael Ave.
Las Vegas, NV 89120

Dear Eric,

Hal = Dr. Harold Puthoff who worked with Davis at the NIDS.

I must apologize to you and Hal for not getting back with you sooner. The "fog of war", current business activity, and losing your new e-mail address all contributed to the delay, which I regret.

First, I must ask if you and/or Hal would be interested in meeting Mr. Bob Beckwith in Tallahassee, FL the evening of May 30th. Bob has been invited to meet with the head of the Florida Academy of Sciences and the Director of the High Magnetic Field Laboratory for a roundtable discussion of his (Mr. Beckwith's) Force Model of the Universe, and his planned experiments in LTT (levitation, teleportation, and time travel), among other subjects. I believe that the meeting date is now firm, but that will be determined in a conference call Thursday 25 April.

Next, let me respond to a few of your and Hal's previous questions:

I would be willing to assist you and Hal with your ongoing research into UFO crash retrievals and the entities within the government (or outside of it) that are involved in that business, with the following caveats.

First, there must be absolutely NO mention or association of my name with your work or investigation. I have absolutely nothing to gain from such association at this time, and possibly much to lose.

Second, I would charge you only for the actual time I spend in putting together materials, references, or contact lists for you to pursue. I would expect that time to be minimal, since that initial information would not take long to put together (probably less than 8 hours). My standard rate for such work is \$180 per straight-time hour.

Third, nothing I would provide you would be classified from a national security perspective. Although I have held a Top Secret (TS) clearance with access to Special

Compartmented Information (SCI), and other "special" clearances for "other" programs, I currently do not work in the classified realm, nor do I hold those clearances.

As I discussed with you, only by means of working on a current classified government contract and having the "need to know", and thus requesting my previous clearances be reinstated by DoD, would I again work in the classified realm.

Now, all that said, and pending further discussion with you and Hal on your ultimate objectives for having such information, I could provide the following:

1. Particulars on a "special team" involved (as a secondary mission) with recovering crashed "craft" including, but not limited to, the previously classified F-117 Stealth Fighter. This team or its successors, its parent sponsoring entity, and its two key officers may provide some of the information that you seek.
2. The name and last location of a senior officer who I believe had first-hand knowledge U.S. government alien reproduction vehicles (ARVs) at Area-51 and associated locations.
3. The name and current location of a retired senior (Flag-rank) officer who I believe was directly involved in government interaction with a significant UFO event on the east coast of the U.S., and I believe has; by virtue of his former leadership position, high military rank, and control of significant military forces, direct knowledge of USG involvement in this business.
4. A list of civilian government contractors who, by virtue of their past and current highly classified work, current capabilities, clearances, specialized personnel, and geographic areas of concern, most likely have current involvement in and knowledge of USG work in alien-derived technologies, crashes, landing, and associated events.

If you have interest in any of the above, please let me know.

Finally, I have a request: I am trying to locate a company in Las Vegas, NV which some years ago manufactured a specialized disabling "pepper spray" for the military and law enforcement. The company was called "1Mark, Inc." (2300 W. Sahara Ave. Ste. 500) and I knew its V.P., a Mr. Joe Zucharro. Any help in locating him and/or the company would be appreciated.

Best regards,

Will Miller

Google and watch the film Zero Point: The Fluxliner ARV to learn about a specific "Alien Reproduction Vehicle" built by Lockheed in the late 50's to early 60's that was based on ET technology and produced an anti-gravity field around itself. The TR3B black triangle also utilizes a similar system to manipulate gravity and negate inertia.

Oke Shannon

TW: Told Oke it's a bad time - time no good to talk to me (EWD) - too busy. Said Oke too difficult to contact anymore - heard he was in and out of hospital - extremely sensitive to stress/heart sick - bad news - tried calling: Linda takes messages but none returned, she doesn't want much on Oke's plate for fear... Didn't say yes or no to request - I would think on it. Three years pass and retiring - left DIA July (2002) - replaced by Adm. Jacoby.

Linda is Oke Shannon's wife.

Vice Admiral Lowell Edwin Jacoby, USN (born August 28, 1945) was the 14th director of the Defense Intelligence Agency.

TW: Came to test site special area to wrap up projects (he began in '98) - successor can't be bothered with right now for lack of time and knowledge. Did tour/audit/say goodbye to folks. Trip set up by NNSA (National Nuclear Security Agency) - Rich & Doug - you (EWD) know them - AFIO members - told about how new Las Vegas chapter needed guest speakers for chapter/public venue - raise money/membership, etc. Rich/Doug talked about you (EWD!) - phoned from DC - sent me copies of your NASA papers and other related - wormholes your thing. Sent PACAF orders, US ID, Lockheed slides, some reports I wrote for NASA.

The Association of Former Intelligence Officers (AFIO)

Pacific Air Forces (PACAF)

EWD: When?

Rich/Doug AFOI Members?

TW: Oh, Sept., after Labor Day. Rich/Doug told me I should talk to you about DIA careers, discuss history, mission, my career in that, etc. I knew better later when I saw your papers and stats they provided - remembered Oke phone call and what he sent me/what he said about you (EWD).

EWD: What did you do with it?

TW: Had office do background checks. Doug/Rich offered to but wanted my own data to be sure. AFIO vouched - AFIO people/DC people now in Vegas vouched.

TW: Gave deep serious thought - recalled Oke's call in '99. Oke really supported me (EWD) - had good arguments.

EWD: What were they?

TW: I (EWD) wouldn't talk to press, to groups (UFO or other such), no media connections, not talk to Miller or Greer or related folks - no vested interest in publicity/money/fame/notoriety, etc.

EWD: We spent time discussing my background - answered his questions on my AF, NASA and related work/interests, etc. History with AF jobs - what I did. Education/career choice, etc. No mention of NIDS!! Oke mentioned JA, me, NIDS in '99, but that's all that was said

JA = Col. John Alexander who headed up the Advanced Theoretical Physics Working Group in the 80's.

TW: Very furious - very angry about Miller (facial expression tense, angry voice)

- Violated personal and professional trust - especially among intelligence colleagues/Navy officers
- There's Navy camaraderie among officers - brotherhood

- Violated that and confidentiality

EWD: How?

TW: Miller told Greer their conversation

- Who knows whom else he and Greer told.

(EWD note – Miller told Ed Mitchell who only told me in 1999)

TW: Then he talks to Kean and Boston Globe articles came out

- Not sure what he told Kean, but articles referenced me (TW)
- FURIOUS!
- Got calls from all over

EWD: What was their nature?

TW: Sarcastic, stupid jokes, stupid comments, comments of surprise and derision (that I would be talking to UFO nuts/nutty UFO groups, etc.)

EW: Who?

TW: Co-workers (flag officers) in Pentagon, lower staff, civilian SES people, people in intell community I work with. Got calls about articles and didn't like it.

TW: I'm taking risk talking to you

- But trusts Oke's word and it is good with me.
- We should have met Oke together face-to-face but present health problems prevent that – too bad!
- So I'll take risk with you

TW: Rich & Doug vouch for you – say your word is good with them. AFIO connection important for trust – you (EWD) know how to be team player

- Background check clear – no derogatory items found
- Korean record good and AF trusts you
- I'm running out of time, so let's go with this!
- If you blow my trust I'll deny meeting you, deny everything said, won't meet with any more people (without clearances) to talk about this topic – too risky because of security violation just by mentioning it – very tightly held info – absurdly closely held subject matter – never seen anything like this program in black programs community

EWD: Okay then, what happened in April – June '97?

TW: After parting with Miller (week later, he thinks) – I made calls, knocked on a few doors, talked to people – went on for 45 days (thereabouts) on and off

Adm. Thomas Wilson was angry that Commander Williard, after being informed of Adm. Wilson's discovery of the SAPs holding ET hardware, passed along the information to Dr. Steven Greer. Remember, even admitting that an unacknowledged SAP exists is a violation of national security that could have made him lose all of his clearances. Losing them could have impacted his career in the corporate/private world after retirement.

For many years articles and stories have been written about Adm. Thomas Wilson's experience based on the information he told Com. Williard Miller who passed the info to Dr. Steven Greer. However, this leaked document presents contains much more detailed information and constitutes proof that he did indeed search for the SAPs, found them, met with them, and was denied access.

Once the UFO/ET cover up is exposed and the rogue SAPs are brought under constitutional authority, all such attacks will end and those who made them will look like blathering idiots.

A waived or "carved out" (exempted from most reporting requirements) unacknowledged SAP is supposed to be the highest level of classification possible. An extra hidden subset of such projects means the programs with ET hardware are buried DEEPER and have even less oversight: they are truly rogue!

MAJOR GENERAL H. MARSHAL WARD

- Suggestion came from Ward (Gen. M. Ward) to go through the records groups files (like an index system) in OUSDAT (Office of the Under Secretary of Defense for Acquisition and Technology)
- Ran into Bill Perry in May '97 – talked about this quietly – he suggested the same thing
- They told me of a special projects record group not belonging to usual SAP – a special subset of the unacknowledged/carve-outs/waived programs – not belonging to usual SAP divisions as organized in '94 by Perry himself – set apart from rest but buried/covered by conventional SAPs

William James Perry United States Secretary of Defense from February 3, 1994, to January 23, 1997, under President Bill Clinton.

EWD: Who was USDAT?

TW: Uh, was Paul Kaminski – talked to both Paul and Mike Kostelnik (a Brig. General)

Paul Kaminski - Under Secretary of Defense (Acquisition and Technology) from 1994 to 1997

EWD: Michael Kostelnik?

TW: In Paul's office (OUSDAT) – dir. of special programs in OUSDAT (Office of the Under Secretary of Defense for Acquisition, Technology, and Logistics) as organized (re-organized) by Perry in '94

- Mike is also director of SAPCO (Special Access Programs Coordination Office)
- Mike is member and executive secretary to SAPOC (Special Access Programs Oversight Committee) in capacity as SAPCO director
- Mike is a member of the Senior Review Group

(TW was Deputy Director DIA/Assistant Joint Chief of Staff J-2 at time; boss was Director DIA Gen. Patrick Hughes)

TW: So found the unusual record group – read the index abstracts.

EWD: Budget info?

TW: No budget info – that is kept in separate records for audit purposes.

- A security budget record is copied into a folder for "the program"
- Talked to Mike who said it was like 2-3 times the program budget, but there were times when it went as high as 6-7 times core budget, thought it was absurdly high, said Perry wanted investigation on that but was told to drop it.

EWD: Who told him that?

TW: He didn't want to answer my question on that – said I could find out something from Judy Daly¹.

¹ Judith Daly: Assistant Deputy Under Secretary of Defense for Advanced Development, OUSDAT

TW: She said by phone call that security and other program budget records were being re-vamped and relocated to their own records groups. Security budgets were sometimes cumulative and not annual numbers, easy to see how misunderstanding occurs when comparing to annual program budget figures. 6-7 times could be 2-5 years cumulative total – there have been errors in way security budgets reported.

TW: Perry ordered all these issues to be reorganized and straightened out to improve audit transparency. **Sec. of Defense Perry's reorganization of how SAPs are managed can be easily confirmed with a few simple google searches.**

EWD: Change subject: so what SAP compartment did you find in?

TW: Core secret – won't say **A Core Secret is a piece of information so sensitive that if released it would likely result in immediate failure of the program.**

EWD: Code name?

TW: Again won't say – core secret

EWD: Who was the project contractor or USG agency that runs program?

TW: An aerospace technology contractor – one of the top ones in US

EWD: Who?

LOCKHEED MARTIN is obviously the contractor that Adm. Wilson refuses to name. There is a multitude of evidence for this including the facts...

TW: Core secret – can't tell

1) Lockheed Martin is the largest (top) aerospace contractor in the United States and has always been. They are also considered to be the best such contractor.

EWD: Defense contractor?

2) You can go to Lockheed Martin's website and see that that they offer Intelligence services which was mentioned as one aspect of the contractor by Adm. Wilson.

TW: Yes, the best one of them.

3) Lockheed Martin built the Fluxliner ARV (Alien Reproduction Vehicle) which was seen by Brad Sorensen at the Palmdale facility and elsewhere by other witnesses. The Zero Point Fluxliner ARV documentary contains much more info.

EWD: Intelligence too?

4) Tom DeLonge has stated the anti-gravity black triangle the TR3B is real and was built by Lockheed Skunkworks. His primary insiders were Gen. William McCasland who had been on the Senior Review Group of SAPOC and Robert F. Weiss of Lockheed.

TW: In their corporate portfolio

EWD: Give a hint?

5) Eric Davis in an interview stated that he had met the former vice president of a legacy aerospace corporation and was told by the individual that he had previous worked on the ET reverse engineering project, but he didn't any longer. It seems obvious this individual was most likely Robert F. Weiss of Lockheed (a legacy aerospace corporation) who was also in charge Skunkworks. Moreover, Weiss was one of Tom DeLonge's primary insiders who admitted to him crash recoveries and reverse engineering have both happened.

TW: Sorry, no.

EWD: What happened when you found contractor?

TW: I made several calls (end of May '97), first to Paul, Mike & Perry to confirm I had right contractor and program manager to talk to.

EWD: They confirm?

TW: Yes.

EWD: Then?

TW: (End of May '97) Made three calls to the program manager – one of them conference call with security director and corporate attorney.

- Confusion on their part as to why I was looking for them and what I wanted from them or wanted to know about.
- Very testy tone from all of them.

By law every SAP must have a Project Director, Security Director, and an attorney.

EWD: What do you mean?

TW: They were agitated about my calling – surprised by call

EWD: What you asked them?

TW: Yes.

EWD: What was that – what words?

TW: I told I read their program record in the OUSDAT special program records group and wanted to know about their crashed UFO program, what their role in that was, what they had, etc. Also asked if they heard of MJ-12 or some such organization code relating to crashed/recovered UFO craft.

EWD: Reaction on phone to that?

TW: Yes! Asked who I talked to before I called them so I told them and they weren't happy with that answer.

EWD: You mean about Perry, Paul, etc.?

TW: Oh, no! I didn't tell them I talked to those guys!

EWD: Whom else you talked to?

TW: There were the other program managers I called.

EWD: You didn't mention that before!

TW: Thought I said something.

EWD: Who were they?

TW: 3 programs who said they weren't what/who I was looking for. 4 programs that referred me back to the present threesome.

EWD: Why the latter?

The "threesome" represents the three representatives of the four Special Access Programs that Adm. Thomas Wilson would later meet in their facility.

Even before the leak of the Adm. Thomas Document, there have been rumors that at least four (or more) SAPs working on ET tech may reveals themselves. Multiple sources that had worked for or with AATIP (Advanced Aerospace Threat Identification Program) have publicly admitted that UFO related SAPs were found by AATIP during the course of their work - but they were denied access due to their program not being a SAP.

Also, note that the number matches the statement on the ufoskeptic.org website! But please note that just because four such programs were located does NOT mean that ALL of them were found by Adm. Wilson or AATIP. Multiple others could exist. These programs have had SEVENTY YEARS to hide and suppress their existence.

TW: Because they were part of it – in different compartments, placed in different layers of the compartments pyramid, split up to do different things or parts of it. They're all in same records group, but their connection to each other is not obvious (typical thing but unusual in records).

EWD: What then?

TW: I told threesome I wanted formal briefing, tour, etc. – was exploiting my regulatory authority as Deputy Director DIA/Assistant Joint Chief of Staff J-2 – Told them my not being briefed was oversight they needed to correct – I demanded!

TW: They needed to discuss this (his demand) so hung up. Got called 2 days later and they said they don't want to talk on phone and arranged for face-to-face meeting at their facility.

EWD: Did you go?

TW: Yes, ten days later (mid-June or so). Flew out there

- Met in their conference room in their secure vault
- Three of them show up

Tom Delonge was taken to Area 51 where he spoke with Robert F. Weiss of Lockheed. Could this be where Adm. Thomas Wilson flew out to? Or could he have flown out to Palmdale or some other location? There are many locations where Lockheed Martin could be running these SAPs.

EWD: 3 guys with whom you had telecon?

TW: Yes, same 3

- Security director (NSA-retired, a CI expert)
- Program director
- Corporate attorney
- Called themselves "the watch committee," or gate keepers

This is the exact setup required by law for a SAP. Every Special Access Project must have a Security Director, Program Director, and Corporate attorney.

EWD: Why that phrase or name?

TW: I asked; they said they were formed out of necessity to protect themselves after a near disaster in the past almost blew their cover – something to do with an agreement that was reached with a couple of Pentagon SESs overseeing SAPs in those days – were vague about when that was.

EWD: What was this?

This could have very likely happened in the late 80's to early 90's while Charles Richard "Dick" D'Amato (serving as investigator, assistant, and chief council for Senator Byrd) was running an investigation to trace where the money was going - especially for security expenses - for these UFO related Special Access Projects. A group of Senators were curious to find out if the SAPs were really holding onto acquired ET hardware due to the increased awareness of the crash at Roswell that was spreading across the globe at that time.

TW: Let me finish!

- They said years ago in past an audit investigation led to them, and it wasn't supposed to – nearly outed!
- A battle, a nasty back 'n forth between them and the investigator and his Pentagon chief ensued – like a tug of war for program transparency, they told me – money was the issue – their hiding out became the other issue.

The investigator was likely although not with absolute certainty Charles Richard "Dick" D'Amato. The description from Admiral Wilson about the first issue being the money and the second issue being the hiding out match very well with what we know about D'Amato's investigation. The identity of the Pentagon chief working for him is unknown at this time.

- Some kind of threat was leveled to blow the lid off them so they backed down and let the investigator in to complete his job
- (They work very hard to keep program hidden)

Do we really know if these individuals were telling Adm. Wilson the truth about finally backing down and letting the investigator have access? They could very well have been lying to try and convey the idea that they do submit to Pentagon authorities and are held to some level of accountability.

EWD: What happened with that?

TW: He was officially briefed, given tour, shown their program

EWD: Did they show him a craft? Or hardware they said was "alien" or from a UFO?

TW: Didn't say more about that.

- Said after that episode a formal agreement was struck with Pentagon people (SAPOC) to prevent this in future – didn't want a repeat
- Special criteria were established in agreement
 - o A special circumstance that must meet rigorous access criteria set by contractor committee
- No USG personnel are to gain access unless they met the criteria – to be administered by contractor committee (program director, attorney, security director) irregardless of the tickets and position USG personnel possessed
- Literally their way or the highway

Senior military leadership have a NEED TO KNOW about the fact ET species are visiting our planet and that we've successfully reverse engineered at least some of their technology. To deny this knowledge from the public is an outrage but to prevent someone like Adm. Thomas Wilson from being read in is outright madness!

EWD: What are criteria?

TW: I asked for that and they refused to give answer. I was mad – implication is now – to me – they operate without official oversight or any justification – politically dangerous place to be!

- [Threesome concerned with who TW had talked to at Pentagon or elsewhere – by phone/FAX/email – wanted accounting of conversations – concerned about new exposure]
- Purpose of meeting was to tell me this.

Although perhaps in the most loosest sense "legal" these rogue SAPs seem more dangerous than the ETs! As insiders have stated in the past, the leadership of these SAPs (and perhaps the remnants of MJ-12) believe they have a special right to manage this topic themselves and keep elected officials out of the loop!

EWD: What?

TW: That they weren't going to let me in the door

EWD: Why?

TW: They said my tickets were all confirmed and valid, but I was not on the bigot list

- My tickets alone were not enough
- I didn't meet the special criteria so need to know authorization was not being granted
- Went back 'n forth with them over these points (primarily with security director & attorney)

TW: Argued more – they wouldn't accept my arguments that they fell under my statutory oversight and regulatory authority as Deputy Director DIA – under purview for my right to have need to know (oversight, audit, justification issues, etc., etc.)

- Regulatory and statutory authority as Deputy Director DIA not relevant or pertinent to nature of their program!
- Then they pulled out their bigot list to convince me otherwise – several pages long – dated 1990, updated 1993.

EWD: Who was on it? Recognize names?

The Director of Special Programs for OUSDAT along with other members of the Senior Review Group and the higher ups they report to are the individuals who most likely have at least some knowledge of these programs - even if the representatives from the contracting companies don't tell them everything.

TW: That is core secret.

- Willing to say that most were program employees – names and titles (job titles) – civilians – didn't recognize any military personnel – could be there.

EWD: Any politicians?

TW: No

- No White House names, no President!
- No Congressional people
- No Congressional staffers

These programs hold fundamental truths about our place in the universe that all humans have a right to know about - in addition to reversed engineered technologies that allow for revolutionary energy production and gravity/inertia control systems. Yet again, to deny to deny this information from elected officials all the way up to the President is obviously contrary to the principles of our democracy. For example, if these SAPs have established a channel of communication with one or more ET species, they are making diplomatic decisions for all humanity when they were elected by NO ONE! They do NOT have such authority!

EWD: Any in Clinton or Bush Sr. Administrations?

TW: No! But handful of names were Pentagon individuals I recognized – few from OUSDAT, one from another department, another at the NSC who is Pentagon SES employee.

- Program Manager said they were
 - o Not any weapons program
 - o Not any intelligence program
 - o Not any special ops or logistics program
 - o Doesn't fit these categories
- I asked what they were then
- Loud groan from Program Manager
- Security Director and attorney say it's okay to say it.

EWD: Say what?

TW: They were a reverse engineering program –

- Something recovered years ago in the past
- Technological hardware was recovered
- So I thought they meant recovered Soviet/Chinese, etc. hardware and reverse engineer it - like a missile or intell platform or aircraft - actually came to meeting expecting to find a sensitive foreign collection and reverse engineering operation - thought "UFOs" used as a cover for that -
- So I said that and they said they weren't that either

The Program Manager was either flat out lying or at least doing so by omission. In addition to there being a multitude of crash recovery cases that have been reported, individuals including Tom DeLonge, Hal Puthoff, and Eric Davis have all stated that there were multiple crash recoveries. The SAPs - without any doubt - have more than one or two ET vehicles. Eric Davis has stated some have come from landings as well. Some of these vehicles most likely have different propulsion systems. For example, a plasma vortex core vs. an egg like shell of nano-layered meta-materials.

- They had (program manager talking) a craft – an intact craft they believed could fly (space? air? water? dimensions?)
- Was it from overseas or not?
- Said NO! Could not be – not possible!!
- Why, I asked – where did it come from?
- Program manager said they didn't know where it was from [they had some ideas on this] – it was technology that *was not of this Earth – not made by man – not by human hands*
- Said were trying to understand and exploit technology; their program was going on for years and years with very slow progress
- Agonizingly slow with little or no success – painful lack of collaboration to get help from outside community of experts and facilities to assist effort – must remain isolated and use own facilities and cleared personnel – tough environment to work – about 400-800 (bigot list count) workers varying in number with funding or personnel changes
- Miller questions asked:
 - o Roswell – craft/bodies/autopsies
 - o Holloman AFB Landing
 - o MJ-12 and leaked docs
 - o Zamora & Bentwaters, etc.
- They were mum – declined to discuss these
- TW threatened to go to SAPOC to complain, gain access to their program
- They said go ahead and do what you must
- I was angry because they defied my authority to be read-in with good logical reason – wouldn't budge
- Their tone was very testy/terse throughout conversation

As we know, many UFOs can seamless transition through various media including space, atmosphere, and water. The Tic-Tac UFO spotted in 2004 is only one example of many likely ET vehicles with such capabilities.

The claim of them making little to no progress is again at least a lie of omission. Even if this specific craft was of the alleged type that utilized layers of nano-materials that would be difficult to understand, it's a virtual certainty that other recovered craft (there have been many) were successfully reverse engineered. The Fluxliner ARV and TR3B are both examples! Remember, they had already decided to deny him access. If they had told him the truth he would never have dropped the issue.

EWD: What was outcome?

TW: Meeting broke up and I returned to Washington

EWD: What about Corso?

Col. Philip J. Corso who admitted to seeing a dead alien body in 1947 and during the sixties distributing samples of ET hardware to private companies. Please read his book, "The Day After Roswell and especially the pre-print that was not spiced up by his co-author.

TW: Greer talked about Corso on April 9th

- Miller showed me the book during two-hour private conversation
- Didn't have time to read it through
- Didn't buy a copy
- Didn't bring Corso up at meeting
- But comparing Corso story to what I learned at meeting is more than enough to believe Corso told truth about seeing "alien" hardware, etc.

Please also listen to Corso's archived interviews which are online.

EWD: Did you complain to SAPOC?

TW: Yes – called the subgroup members (Senior Review Group members) to a meeting at Pentagon

- Told them what happened at meeting

- They responded that they would sustain the contractor on their access denial
- So I ended up arguing with them a while
- Broke up in 20 minutes and they would meet me in 2-3 days
- Got the call 2 days later (near end of June) and met again with Senior Review Group members

Note the time period being the end of June. This is relevant to figuring out who was the Chairman of the Senior Review Group.

EWD: When?

TW: Before last week of June ('97)

- They told me (TW) that they were sustaining the contractor, that I was to immediately drop the matter and let it go – forget about it as I did not have purview over their project, it didn't fall within my oversight, etc.
- I became very angry – started yelling when should have kept my mouth shut

They not only denied him access but threatened his military career! This sort of behavior is unacceptable and is one of many reasons why these SAPs must be exposed.

EWD: Miller and Greer said you nearly got busted.

Likely SRG Chairman Noel Longuemare, Jr.

TW: Close to that!

The Deputy Under Secretary of Defense during this time who was also serving as the acting Under Secretary of Defense was Noel Longuemare, Jr.

The Deputy Under Sec. of Def was supposed to be chairman of the SRG.

- Told Miller Senior Review Group chairman said if I didn't follow their suggestion that I would not see Director DIA promotion, get early retirement, lose 1 or 2 stars along the way
- Really incredibly angry – upset over this – livid!!!
- Why such a big deal over this considering the position of trust I have in the Pentagon – I do have relevant regulatory/statutory authority over their program – that's my position!!!

EWD: Is it because funding comes from you or through you? Or Director DIA?

TW: Core secret – can't answer

What's so disgusting about the massive funding of these SAPs is that the public is having to pay for research that develops technologies that are not only sequestered away from themselves but also their elected officials and senior military leadership.

EWD: Back to bigot list – can you describe type of people?

Every SAP must have a bigot list that details who exactly has access to their program.

TW: Corporate types – scientists and technicians– engineers, scientists, managers, etc.

They probably need all these scientists and engineers to maintain their anti-gravity vehicles such as

EWD: Any military organizations you recognized?

the TR3B that Tom DeLonge wrote about in his book Sekret Machines and various generations of Fluxliners.

TW: None – just OUSDAT people – and two on SAPOC – one other Pentagon office

- In Dec. '97 Paul was out as USDAT, left gov't – so was Mike K., replaced too

EWD: By whom?

TW: Jacques Gansler was new USDAT, started Dec. '97

- Mike K. was replaced by Brig. Gen. M. Ward (AF)

The Director of Special Programs for OUSDAT automatically gets a seat on the Senior Review Group and would have been read in. Since the Director of Special Programs reports directly to the Deputy Under Secretary of Defense who is the chairman of the SRG, Noel Longuemare, Jr. would have likely been the other OUSDAT person.

EWD: Were Paul K. and Mike K. and Jacques Gansler and Gen. Ward the ones on the bigot list you recognized?

TW: Won't answer that. **Too bad. We've likely figured it out anyway.**

TW: Talked to Gansler in Jan '98 about my June '97 meetings.

- He was briefed by someone! Surprised me **Jacques S. Gansler, former Under Secretary of Defense for Acquisition, Technology and Logistics, would have known because his position gives him ultimate authority over OUSDAT.**

EWD: What did he say?

TW: "UFOs are real, so-called 'alien abductions' not real" - Gansler said this

EWD: What else? **The statement by Gansler that alien abductions are not real was most likely a lie. Instead, the abduction and experimentation on of humans by ETs is most likely one of the MOST classified secrets they don't want the public to ever be told about. He was not about to confirm them to Adm. Wilson.**

TW: Told to drop the matter - no more discussion about it.

EWD: Willing to talk to Hal Puthoff and Kit Green? (Discussed who they are, and RV program history)

Christopher Kit Green - Former Director of the Weird Desk at CIA.

- TW not familiar with names, heard about RV program in 1990
- Maybe/maybe not for Hal - would think about it. **RV stands for Remote Viewing which Hal Puthoff was involved in.**
- No response on Kit Green.
- Prefers never to talk to anyone else about this again - risks exposure - better to stop talking, cut it off here.

TW: What will you (EWD) do with this? **Eric Davis obviously composed these notes and distributed them among the members of NIDS.**

EWD: Keep for private/personal research - data collection to track down the story and ascertain signal/noise in media and from gov't sources. Will keep mouth shut, etc. etc. Told Wilson about Mary Elizabeth Elliot-TRW story, Ingo's story and 1974 RVer woman who went to WPAFB - trying to make connection. **Ingo - Probably referring to Ingo Swan a remote viewer.**

TW: Feedback - Mary Elliot sounds like real deal based on her info and behavior with attorney (Jeffrey W. Griffith)

- Probably will only come totally clean on her deathbed 30 years from now.
- Don't know about Ingo, Axelrod, or RVer woman at WPAFB - doesn't have info on their stories from sources.
- Asks for Corso material (will send)

EWD: NOTE - TW asks for briefing book on my work (NASA/AFRL) - send other papers if I want to.

AFRL - Air Force Research Laboratory

- Given office address in D.C. to mail
- Will retire to Midwest and close office in 2003.

Summary

The Adm. Thomas Wilson document provides smoking gun evidence that not only have crash recoveries of ET space craft taken place but there have been multiple SAPs working on the material obtained. These programs operate with with very little oversight and receive massive budgets that are approved by the Senior Review Group of the Special Access Project Oversight Committee. All efforts must be made to present this document to congressmen, senators, other elected officials, military leadership, and the media to convey the truth about these topics. Interestingly, this document also helps confirm the reality that Tom DeLonge's principle adviser, Gen. William Neil McCasland, who was at one time the Director of Special Programs for OUSDAT (therefore on the SRG) would be aware of these programs. The revelations given to DeLonge by Gen. McCasland and Robert F. Weiss (of Lockheed Martin) are almost certainly factual: we've acquired ET hardware and have successfully reverse engineered at least some of the technology. The time for disclosure is now: not only does the public have a fundamental right to know but our civilization is facing enormous challenges including a growing population, pollution, and climate change. The technologies reverse engineered could help prevent us from a future collapse. Bold, direct, and immediate action must be taken by those in the know to end the truth embargo once and for all.
